GOALS AND ACHIEVEMENTS FOR THIS PROJECT

Choose several goals for your project. Goals should be established at the beginning of your project. They should be challenging, yet attainable. Goals should include all aspects of your project. At the close of the project, the achievements should be compared with your goals. Check off what you plan to do or write your own in the space provided. Then, have your leader initial and date the goals you achieve.

Mark (x)-- what I plan to do:	Goal	Date Achieved	Leader's Initials	Comments
	Raise my animal(s) to completion and exhibit it at the county fair.			
	Exhibit my animal(s) at fairs other than county fair.			
	Take full responsibility for the fitting and showing of my animal(s).			
	Learn how to groom and clip my project animal.			
	Be in the top 10 of my class with my breeding animal(s).			
	Complete my record book to the best of my ability.			
	Complete a Florida 4-H Award Portfolio in my project area. (Must be 14 or older to compete.)			
	Raise offspring using sound production practices			
	Sell offspring generated in this project.			
	Learn appropriate management practices.			

INVENTORY OF SUPPLIES AND EQUIPMENT

(Add pages if necessary)

This is a record of what you have before you start your project, those items you purchase/receive during your project and what you have at the end of your project. This could include any brushes, grooming supplies, show box, barns, fences, etc.

Item Description	Number	Price	Value at the end of the project*		Note if: Sold(S) Discarded (D) Lost (L) or Kept (K)

MISCELLANEOUS OPERATING EXPENSES RECORD

(OTHER THAN FEED AND COST OF ANIMALS)

List your miscellaneous operating costs, other than feed and cost of animals, on these pages. In column 1, record the date of payment and, in column 2, a description of the item cost. In column 3, record the number of units purchased. Use the unit by which pricing is normally done--such as pounds, hundred weight (cwt), dozens, tons, etc.--and identify which unit is being used. In column 4, record the price-per-unit of the units used in column 3. Multiply the *Price-per-Unit* (column 4) by *Quantity* (column 3) to get the cost of each item and record in the appropriate column of *Miscellaneous Operating Costs Categories* (columns 5-14). For example: if the veterinarian administered 4 doses of de-wormer at \$2.00 a dose, the \$8.00 total would be listed in column 7.

MISCELLANEOUS OPERATING EXPENSES RECORD (continued)
 (OTHER THAN FEED AI\1]) COST OF ANIMALS)

At the completion of this project, all columns should be totaled and the accuracy checked. Also, the sum of all the totals of columns 5-14 added together should equal the total of Box 5. When the accuracy has been checked, transfer the total costs from Box 5 to the Project Summary on page 13.
